

The logo for Advantis, featuring the word "Advantis" in a black sans-serif font. A red, stylized circular graphic element, resembling a partial ring or a signal path, encircles the letter 'i' and extends to the right.

*Gives your well a voice you can hear anywhere...*

### **Complete Solution**

The Advantis System streamlines the flow of information from the field to the office and provides an end-to-end solution for your oil and gas automation needs. Features include minimal easy-to-install equipment, customized data handling, integrated communications and world-wide coverage.

### **Cost Effective**

Don't replace it- Automate it! Because Advantis interfaces with existing chart recorders and EFM's, no additional costly equipment upgrades are necessary for automation. This keeps initial investment low.

### **Fast Installation**

Installs within hours and immediately provides real-time information when and where it is needed, no matter the well location.
