

PRODUCT IDENTIFICATION NETWORK

THE PREMIER SOURCE FOR INDUSTRIAL INKJET

The Industrial Inkjet Market's Greatest Combination – The Product Identification Network and PIN Inks

The Product Identification Network (PIN) is comprised of 19 independent distributors with hundreds of years combined industrial inkjet experience to serve you as an end user with the highest quality products and unsurpassed customer service.

Strategically located throughout the United States, the PIN member distributors offer high quality High Resolution Inks for Trident® print engine-based systems and Videojet Encore and Patron Plus HR systems that utilize the Crossbow engine technology. In addition to these inks, a wide array of water based inks for porous printing applications is offered, including replacement cartridges for the Marsh® Unicorn® and Loveshaw Little David Microjet® print systems.

Count on the Product Identification Network to be there when you need them with a combined 138 sales representatives and 58 service representatives to keep your production lines up and running with knowledge and experience.
