PRESS RELEASE

Completion of Share Acquisition of Graphic Controls, Now a Subsidiary of Nissha Printing Co., Ltd.

Graphic Controls Holdings, Inc. (“Graphic Controls”) is pleased to announce that Nissha Printing Co., Ltd. (“Nissha” Headquarter: Kyoto, Japan; President and CEO: Junya Suzuki), has formally completed the majority share acquisition of Graphic Controls from Westview Capital Partners II, L. P. and its partnering shareholders.

The Graphic Controls Executive Management Team is truly excited about the new partnership, now as a subsidiary of Nissha. This transition brings mutually beneficial opportunities to both organizations, resulting in immense synergies through technology mobilization and international growth. Sam Heleba remains President and CEO of Graphic Controls, supported by his existing Executive Leadership Team.

The addition of Medical Products, Transactional Media and Industrial Products businesses are a true complement to Nissha’s diverse business portfolio.

In recent years, the Vermed and Biomedical Innovations divisions have been the growth engines of Graphic Controls, concentrating on consumable acute care medical products and medical surgical devices.

Together with Nissha, Graphic Controls and its global footprint of manufacturing, sales and distribution locations will ensure stable growth and diversity for Nissha.

The transition will be seamless to both customers and employees, while providing exciting new opportunities for products and services.
